

INTERNATIONAL INTERNSHIP OPPORTUNITIES

PREPARED FOR

The Students of COMSATS University Islamabad
(CUI) in line with the Internationalization Strategy

International
Office

PREPARED BY

International Office

COMSATS University Islamabad

Foreword

In order to maintain and further uplift the bright stars of COMSATS University Islamabad (CUI) in practical world, the International Office of COMSATS University Islamabad has prepared the handbook containing details of different International Opportunities available to them. The handbook serves as a reference guide for students. It contains the criteria, requirements, and procedures for completing the Internship program. It outlines the roles and responsibilities of the students, and the employer. These internships for students are available for all students who are currently studying in Bachelors, Masters and PhD. In addition, this booklet also contains Internship opportunities for students who have graduated from CUI.

This handbook has been developed as the primary resource for Students, the Internship is career-related work experience that enhances a student's academic training and provides a real-world introduction to the student's chosen academic program of study/career. It is not necessarily a paid job. The purpose of an internship is to provide a hands-on learning opportunity within a real-world work environment to assist the student in meeting graduation requirements and/or to pursue career interests.

Please feel free to contact the Coordinator of Internships and Experiential Learning at any time if you need assistance with any aspect of this process. By doing so the International Office of CUI is better able to facilitate the process of finding an intern who meets your position requirements. As we intend to maintain a close partnership through open communication throughout the experience to assure the success of our students.

In the end, I must acknowledge the input and feedback provided by all the International Office staff and the hard work and research that Mr. M. Abbas Baloch had to carry out in compiling this valuable resource booklet.

Ali Tawab Baloch
Head, International Office
