# INTERNATIONAL SCHOLARSHIP OPPORTUNITIES

---

## **PREPARED FOR:**

The Students of COMSATS University  
Islamabad in line with the Internationalization  
Strategy

## **PREPARED BY:**

International Office

**COMSATS University Islamabad**

# Foreword

Moving abroad and studying at an international university is a dream of many students. And why not, overseas education provides benefits to students like broadening knowledge, learning new languages, gaining independence, discovering and immersing in new culture, expanding network, finding hidden gems and coming back to the beloved country proudly with international exposure and with all skill sets. These benefits ultimately help out students for grabbing employers' attention. This dream come true can be intimidating for taking practical steps even if students are on their budget.

However, moving and studying abroad is too expensive! This is falsely believed by many students since they do not know that plenty of scholarships are available globally, waiting ahead rather running behind the students to tap these opportunities. These scholarships are open at Bachelor's, Master's, and PhD degree programs and provide excellent opportunity to study. The point is that most of the students are not aware of these opportunities. We, at the International Office, are here to facilitate our alumni, give information about available scholarships and assist them to add mission to their future.

The International Office in line with the Internationalization Strategy has prepared a handbook for uplifting bright stars of COMSATS University Islamabad (CUI) to take practical steps to benefit from international scholarship opportunities to study abroad. The booklet contains information about courses description, fields of study, grants, eligibility criteria, application procedure, deadline and a web link for comprehensive information. Please take advantage of these opportunities to receive a quality education at an international university of your desired destination country and make your dreams come true! So, read the handbook carefully and follow the guidelines.

At the end, I must acknowledge my team comprising Mr. M. Abbas Baloch, Mr. Zubair Iqbal, Mr. Ghazanfar Ali, Mr. Ashfaq Ahmed and Engr. M. Junaid Zafar who explored these opportunities and compiled into this valuable resource booklet. This team can be contacted for further assistance. Their contact details are mentioned below.

## 1. Australia Awards Scholarships 01 May (Annual)

### Description:

Australia Awards Scholarships, formerly known as Australian Development Scholarships (ADS), provide opportunities for people from developing countries, particularly those countries located in the Indo-Pacific region, to undertake full time undergraduate or postgraduate study at participating Australian universities and Technical and Further Education (TAFE) institutions.

**Course Level:** Bachelors/Masters/PhD Degrees

**Subjects:** Undergraduate or Postgraduate Programs that are related to your country's priority areas for development.

**Grants:** The scholarship benefits generally include full tuition fees, return air travel, establishment allowance, contribution to living expenses (CLE), Overseas Student Health Cover (OSHC), Introductory Academic Program (IAP), Pre-course English (PCE) fees, etc. The scholarships are offered for the minimum period necessary for the individual to complete the academic program specified by the Australian higher education institution, including any preparatory training.

**Eligibility:** To be eligible to receive a Scholarship, applicants must:

- Be a minimum of 18 years of age on 1 February of the year of commencing the scholarship.
- Be a citizen of a participating country (as listed on the Australia Awards website) and be residing in and applying for the scholarship from their country of citizenship.
- Not be married to, engaged to, or a de facto of a person who holds, or is eligible to hold, Australian or New Zealand citizenship or permanent residency, at any time during the application, selection or mobilization phases (note: residents of Cook Islands, Niue and Tokelau with New Zealand citizenship are eligible but must apply for a student visa [subclass 500])
- Not be current serving military personnel.
- Not have previously received a long-term Australia Award unless they have resided outside of Australia for twice the length of the total time that they were in Australia (for example, a previous awardee who has been on an Australia Awards Scholarship in Australia for four years will not be eligible to apply for another Australia Awards Scholarship until they have resided outside Australia for eight years);
- Not hold convictions of criminal activities (including in their home country) including those relating to Child Protection and PSEAH.

## 6. Commonwealth Climate Resilience Challenge Grants 13 March (annual)

### Description:

ACU Commonwealth Climate Resilience Challenge Grants are awarded to member universities to support initiatives addressing climate resilience. Open to academic and professional staff, the grants support collaborative work focused on either of the two main strategic priorities of the Commonwealth Climate Resilience Network (CCRN):

- Enhancing the climate resilience of universities themselves, and/or
- Enhancing universities' contribution to the resilience of communities, business, and government

The grants can be used for a diverse range of projects, workshops and events in areas such as:

- Improving learning, teaching, and training for climate change adaptation – e.g., virtual exchange or collaboration, teaching or professional practice collaboration and sharing and co-development of learning materials
- Increasing the research capacity of CCRN members in climate change adaptation – e.g., virtual fellowships or collaboration, comparative analyses, research management and uptake capacity building, understanding, and documenting indigenous knowledge and resilience practices
- Improving institutional resilience policies and practice adopted by Commonwealth universities - e.g., developing tools, training and approaches to support contingency and continuity of operations planning at higher education institutions.

To date, the grants have funded a diverse range of climate action projects in universities across the Commonwealth - from sea-temperature monitoring in the coral reefs of Fiji, to integrating indigenous knowledge on climate change adaptation with academia in New Zealand.

**Grants:** Four grants of up to GBP 2,500 each are available for staff at ACU member universities to help meet the costs of organizing projects that promote the aims and priorities of the CCRN.

**Eligibility:** Applicants to collaborate with other ACU member institutions to promote further Commonwealth partnerships. Grant applications that allow matching or additional funds from the applicant's institution will be looked upon favorably. Grantees are required to submit a short interim report halfway through their project and a comprehensive final report within one month after completing their project. Additionally, any outputs (e.g., toolkits, papers etc.) developed through the grants are to be made available to the CCRN and wider ACU network.

## 24. Rhodes Global Scholarships 1 Aug (Annual)

### Description:

Until recently, the Rhodes Masters and PhD Degree Scholarships have only been awarded in 20 constituencies (representing over 60 different countries). Now the Rhodes Scholarships are fully global: two new Global Scholarships allow eligible candidates from the rest of the world to apply (subject to nomination). Rhodes Global Scholarship is looking for outstanding young leaders who are motivated to engage with global challenges and to promote international understanding and peace.

**Grants:** A Rhodes Scholarship covers all University and College fees, a living stipend (£18,180 per annum 2022-23); settling in allowance, health insurance, visa, two economy class flights – to and from the UK – for the beginning and end of studies in Oxford. The basic tenure of the scholarship is two years, subject always, and at all times, to satisfactory academic performance and personal conduct.

### Eligibility:

**a. Nationality/citizenship:** You may only apply to the Global Scholarships if you are not eligible to apply via any existing Rhodes constituency. If you have a strong connection to one or more Rhodes constituency but do not meet their eligibility criteria you should also consider inter-jurisdictional consideration rather than the Global Scholarship

### b. Age:

i. You must be aged 18-23 on 1st October 2023 (i.e. you must have been born after 1 October 1999 and before 2 October 2005).

OR (for older candidates who completed their first undergraduate degree later than usual)

ii. You must be under the age of 27 on 1st October 2023 (i.e. have been born after 1 October 1996) AND you must also have completed your first undergraduate degree on or after 1 October 2022

**c. Academic achievement:** You must have already completed, or will have completed by July 2024, an undergraduate degree (normally a Bachelor's degree) with an academic background and grade that – at a minimum – meets or exceeds the specific entry requirements of your chosen full-time course at the University of Oxford.

Given the very intense international competition for places at the University of Oxford, candidates will have a greater chance of successful admission to Oxford if they have a First Class Honours Degree or equivalent or a GPA of 3.70/4.0 or higher.
