

About the Role:

We are looking for a passionate and motivated **AI Intern** to join our team. This internship provides an excellent opportunity to gain hands-on experience in AI projects, machine learning, and backend development using FastAPI.

Key Responsibilities:

- Assist in developing and deploying AI models and solutions
 - Contribute to building and maintaining RESTful APIs using FastAPI
 - Support tasks such as data preprocessing, model training, and performance evaluation
 - Collaborate with the team on various AI-related initiatives
 - Prepare documentation and share progress with mentors/supervisors
-

Requirements:

- **Bachelor's degree** (completed or in final year) in **Artificial Intelligence (AI)**, **Computer Science (CS)**, **Software Engineering (SE)**, or a **related field**
 - **Basic understanding** of **Python programming**
 - **Familiarity** with **FastAPI** and web development concepts
 - **Foundational knowledge** of **machine learning** and **deep learning** techniques
 - **Final Year Project (FYP)** should be in **AI** or a relevant domain
 - Willingness to learn, take initiative, and work collaboratively in a team environment
-

Preferred Qualifications:

- Exposure to libraries like **TensorFlow**, **PyTorch**, or **scikit-learn**
- Basic experience with **Git** or other version control tools
